EXPERT KITS+

REPAIR SETS

PERFECTLY COMBINED

ENG - Flyer_ExpertKitsPlus_20191206

WHAT ARE EXPERT KITS+?

VIEROL's EXPERT KITS+ contain complete repair solutions designed by experts that facilitate part identification and their procurement for workshops, and also help keep stocks at manageable levels. The service-oriented EXPERT KITS+ meet the highest of standards with respect to assembly ease and installation reliability, whilst also saving time and money.

Extensive and efficient repair sets

Using EXPERT KITS+ ensures that components are ideally matched to one another and does away with the search for necessary accessory parts for the repair. This simplifies the entire procurement process and significantly reduces the repair time in the workshop.

Practice-oriented and adapted to customer needs

Cooperation between our experts from the VIEROL ACADEMY and workshops has led to a made-to-measure complete solution - our **EXPERT KITS+**.

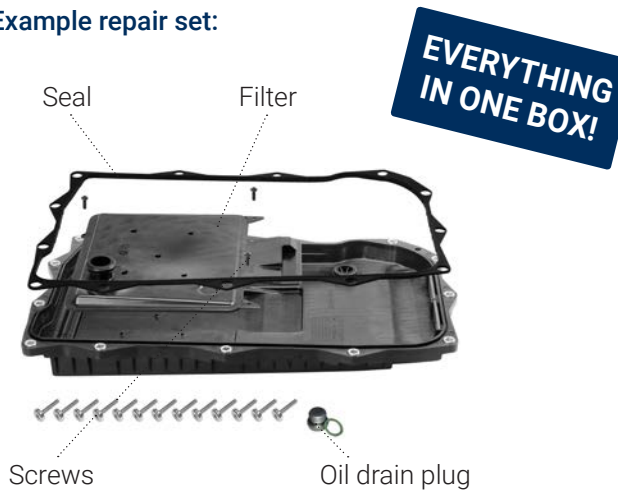

YOUR BENEFITS

- › improves service quality and saves labour time
- › saves money and nerves
- › facilitates the part identification and simplifies the procurement
- › lean inventory management

Quality and customer satisfaction are our top priorities, which is why we only select products made of high-quality materials that are excellently finished and are subject to strict quality inspections.

Example repair set:

THE SUM OF ALL PARTS

- › Gear filter kits
- › Timing chain sets
- › PDC sensors and EGR kits
- › Filter and coupling sets
- › ...and lots more.

The sum of all parts

The EXPERT KITS+ Program is one of the most extensive in the market and now contains more than 4,000 different repair sets.

Practice-oriented and always complete.
