

## WHAT ARE EXPERT KITS+?

VIEROL's EXPERT KITS+ contain complete repair solutions designed by experts that facilitate part identification and their procurement for workshops, and also help keep stocks at manageable levels. The service-oriented EXPERT KITS+ meet the highest of standards with respect to assembly ease and installation reliability, whilst also saving time and money.

### Extensive and efficient repair sets

Using EXPERT KITS+ ensures that components are ideally matched to one another and does away with the search for necessary accessory parts for the repair. This simplifies the entire procurement process and significantly reduces the repair time in the workshop.

### Practice-oriented and adapted to customer needs

Cooperation between our experts from the VIEROL ACADEMY and workshops has lead to a made-to-measure complete solution – our **EXPERT KITS+**.

For more information about our range, please see our **EXPERT KITS+** Catalogue

and at [www.expertkits.de/en](http://www.expertkits.de/en).
